Dear Judge Tynes:

On Wednesday, October 7, 2020, Governor Abbott issued Executive Order GA-32, which supersedes GA-30. Significantly, GA-32 updates the thresholds for areas with high hospitalizations.

The new definition of areas with high hospitalizations is:

Any Trauma Service Area (TSA) that has had seven consecutive days in which the number of COVID-19 hospitalized patients as a percentage of total hospital capacity exceeds 15 percent, until such time as the Trauma Service Area has seven consecutive days in which the number of COVID-19 hospitalized patients as a percentage of total hospital capacity is 15 percent or less.

Under the criteria laid out in GA-32, your area, TSA L, meets the definition of a high hospitalization area and so may not conduct elective surgeries or reopen to the higher levels allowable under GA-32.

TSA L includes the following counties:

- Bell
- Coryell
- Hamilton
- Lampasas
- Milam
- Mills

Data on hospitalizations may be found at dshs.texas.gov/ga32/.

GA-32 allows counties in TSAs with high hospitalizations to choose to operate at 75 percent capacity if:

- the county has fewer than 30 cases reported over the last 14 days, and
- the county judge submits an attestation to DSHS.

More information on this attestation process may be found at the link above.
