It is the policy of the County that such incentives will be provided to appropriate businesses in accordance with the procedures and criteria outlined in this document. However, nothing in this policy shall imply or suggest, or be construed to imply or suggest, that the County is under any obligation to provide any incentive to any applicant. Section C. Types of Incentives

1. It is the intent of the County to offer tax abatement and/or other economic development incentives on a case by case basis so that the total package of incentives may be designed specifically for each project which is proposed.

2. The criteria outlined in Section B., above, will be used to determine whether or not it is in the best interest of the County to provide any tax abatement and/or other economic development incentives to a particular applicant. The extent to which a proposed project furthers the goals and objectives of the County and the projected impact of the project on the County will be used to determine the types and value of the incentives provided. Abatement may be up to 100% or can be set at an amount the County determines. The County may provide for abatement on a sliding scale. Generally, tax abatement will not be provided to any applicant for a period greater than 5 years.
